ABOUT ME:

I hold a degree in Computer Science and have experience as a software developer. My combined expertise in programming and 3D allows me to oversee and understand a project through all its stages. I am committed to continuous growth and problem-solving, focusing on creating technical and creative solutions that effectively integrate software development with project requirements.

WORKING EXPERIENCES:

NUMISMATICA STEFANINI

2026 — I developed a **React Native application** for numismatic valuation and appraisal. https://play.google.com/store/apps/details?id=com.numismatica.stefanini&pcampaignid=web_share

BLUEZONA

2026 — I developed a **VR serious game** for agricultural training and workplace safety, for the European Erasmus MASTER XR call. Unity3D. Project FARMTRON-XR https://www.master-xr.eu

VIRTUALLY 3D

2025 — I developed an **interactive 3D application** for real estate with Unreal Engine.

BLUEZONA

2025 — I made a 360 video and the 3D model of an honeybee for the **Union's Horizon Europe research program** - Blender. https://xr4ed.eu/

RISING PIXEL

2024 — As Bachelor Thesys, I developed a **Serious Game** to handle anxiety and work-related stress.
- React Three Fiber e Blender.
https://zengardenmicroverse.netlify.app/

VIRTUALLY 3D
